DETAILED ACTION

1. Receipt of Applicant's amendment after Notice of Allowance (Rule 312) filed May 28, 2010 is acknowledged.

Response to Amendment

3. Claims 1-40 have been previously canceled. Claims 41-67 have been previously allowed. Dependent claims 68-92 are new.
4. Claims 41-92 are pending and have been allowed.

Reasons for Allowance

5. The following is an examiner's statement of reasons for allowance:

The claimed invention pertains to a method and product of providing a plurality of windows that have predefined locations for first and second virtual workspaces, where the plurality of windows display information related to at least one or more tradable objects and where the first defined layout is different than the second. The second workspace is associated with a trigger event definition, and when data based on the one or more tradable objects is detected, the second workspace is displayed, where the same windows in the first layout are relocated based on a predefined layout for the second workspace.

Based on prior art search results, the prior art deemed closest to the allowed claim is U.S. Patent No. 5,339,392 to Risberg et al.

The Applicants Arguments/Remarks on pgs. 11-16 dated May 28, 2010 are incorporated by reference as reasons for allowance.

Dependent claims 42-66 and 68-92 are allowed for the reasons indicated above for their respective independent claims 41 and 67.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
